University Semester Abroad
Advance Your Degree in the U.S.A.

The Program
University Semester Abroad (USA) is an educational program where international students visit the California State University, Fullerton (CSUF) campus for a semester or two.

The experience gives them the opportunity to interact with American students, faculty and other international students while taking classes on an university campus.

Every day is an adventure in American culture – meeting new people, trying new foods, learning something new. Many students have called it, "An Experience of a Lifetime!"

The University
California State University, Fullerton offers over 3,400 different courses ranging from general education and business, to art and engineering.

Ideal Location
Our beautiful Southern California campus is conveniently located near key attractions and east of Los Angeles. CSUF is within driving distance of beaches and mountains. The average temperature is 21°C.

During their stay, students will have the opportunity to:
- Take university courses, earning credits that may transfer to their home university
- Live in a dormitory or an apartment near the university
- Visit Southern California attractions such as Disneyland, Hollywood, beaches and more
- Join international groups on campus and participate in all the student events and activities

USA is designed for students who have met the TOEFL requirement or who have received high scores on placement tests. Students who choose to come without a TOEFL score and do not meet the English proficiency requirement may need to complete a semester or more of intensive English courses before enrolling in university courses.

I had the best time of my life when I was in Fullerton. I met so many nice people and we had the opportunity to see other parts of the country. The professors at the University really inspired me. They taught me things that I still carry with me. They had a lot of experience in their field which made them very interesting.
