National Taiwan University

2011 Summer Programs

Exploring Taiwan @ NTU
Summer Program for Laboratory Research & Culture

Program Benefits

It gives students the opportunity and the resources to engage in laboratory research at some of NTU’s modern, well-equipped laboratories. This research without borders concept coupled with Exploring Taiwan courses allows students a broad and well-rounded summer experience.

Who Could Apply

Junior year and above, including Masters and PhD candidates (includes overseas Chinese) currently studying in domestic and international institutions, as well as students from partner schools in China.

Laboratories

Departmental labs available include:
- College of Science
- College of Electrical Engineering & Computer Science
- College of Engineering
- College of Bio-Resources and Agriculture
- College of Life Science
- College of Public Health
