Ms Angela Schindler-Daniels has experience working not only as the SSH NCP but also as programme coordinator and as the national expert in the SSH programme committee. She commands a vast knowledge of all facets of NCP work and the challenges involved. Angela has coordinated the SSH NCP Network from its onset in 2008 and represented Germany in the HERA-ERANET and is in the quality assessment team of the NCP Health Network. She has witnessed the evolution of SSH topics from a key action to an independent programme. Angela’s work has always been in an international context (International Bureau of the Federal Ministry of Education and Research as the USA desk officer; Economic and global affairs specialist with the U.S. Embassy in Bonn). She holds a master’s degree in Political Science, American Literature and Business.
NET4SOCIETY - Trans-national cooperation among National Contact Points (NCP) for Socio-economic Sciences and Humanities

Description

NET4SOCIETY is the international network of National Contact Points for Socio-economic Sciences and Humanities (SSH) in the 7th European Framework Programme (FP7). National Contact Points (NCPs) are set up to guide researchers in their quest for securing EU funding.

The trans-national project NET4SOCIETY strives to achieve this declared goal. For its proposed duration of three years, NET4SOCIETY is supporting the creation and establishment of a functional network of Socio-economic Sciences and the Humanities (SSH)-NCPs.

NET4SOCIETY offers specific high quality training sessions (based on a questionnaire that is sent to all SSH-NCPs), dedicated workshops, and mentoring and brokerage events. The project provides targeted tools such as a best practice handbook and a database for the specific area of “Socio-economics and Humanities”, including a refined partner search tool. These tools are published on the project’s dedicated internet site. They aims for researchers and stakeholders in Socio-Economic Sciences and Humanities. These tools are also designed to help you find funding opportunities for your research project and provide you with up-to-date information on the European Commission funding schemes.

NET4SOCIETY is the network of National Contact Points for Socio-Economic Sciences and the Humanities (SSH), and was founded in 2008. We actively support networking in the SSH research community and offer help in every respect of FP7 consultation. NET4SOCIETY includes the European and International National Contact Points of almost 50 countries in 2012. Through the project NET4SOCIETY the first network of SSH-NCPs is created.

All NCPs are involved in several network activities and have access to all network events and tools. NET4SOCIETY is opened to all SSH-NCPs, including those who have declined their official participation.

All NCPs, including non-members, are informed on a regular basis and have the possibility to contribute to the project’s objectives, participate in the network events and benefit fully from the project’s results.
