Dear International Partners,

Greetings from Sungkyunkwan University!

* Please forward this file to the right person if you are not the right recipient.

My name is Kyuseok Kim who is in charge of incoming exchange students at SKKU International Office. It is a big pleasure to communicate with you again or for the first time.

I am writing you to inform you of significantly attractive scholarship program, GKS (Global Korea Scholarship) run by National Institute for International Education Development of Korean government. (http://www.niied.go.kr)

Acknowledged as the leading higher educational institution in Korea, SKKU is entitled by the organization to give considerable amount of scholarship to competent exchange students from your university. 21 future SKKU exchange students will be given the scholarship.

Since I have not received nomination from your university, I would like to kindly ask you to nominate a couple of students as exchange students for SKKU who are possibly going to be beneficiaries of GKS program. Details are elaborated below.

- Period: September 2010 ~ February 2011 (6 months)
- Number of Beneficiaries: 21
- Total Amount of Scholarship: KRW 6,680,000 / student (USD 5,985 as of April 20, 2010)
  - Living Expense Stipend: KRW 800,000 / month
  - Round Air Ticket: KRW 1,590,000
  - Entrance & Adaptation Subsidy: KRW 200,000
  - Insurance Fee: KRW 15,000 / month

Application process and required documents are same as regular exchange students program of SKKU, while SKKU International Office is going to take necessary steps for the GKS application. There would more chance for your student to be selected as beneficiary if you let me know who decides to study at SKKU as soon as possible. Because the scholarship will be awarded to only 21 students from various partner universities. If there are more than 21 applicants, we may not able to accept all of the applications.

Plus, GKS is going to be continued for the next year. Hence, we would appreciate if you would send exchange students to SKKU next year if currently you have not so many students who are interested in the program.

Thank you very much for cooperation and I will be looking forward to receiving positive replies from you. If you are interested in the program and have inquiries, I would be happy to answer to them through mickim84@skku.edu.

* You will find Information Sheet of SKKU exchange student program, 2010 on the next page
