Teaching

UNAM offers undergraduate and graduate studies more than any other institution in Mexico: 2 high school systems, the National Preparatory School and the National College of Science and Humanities; 99 undergraduate programs in its different schools; 40 graduate programs and 33 specialties. Also courses, conferences, seminars, roundtables, performances, tournaments, cultural activities, and continuing and distance education are offered.

In Mexico, it stands out as a university that trains the highest number of professionals, in a wide variety of fields of study. The study programs are evaluated systematically in order to adjust to the current demand in the global labor market.

Undergraduate Programs

Mathematical and Physical Sciences
- Actuarial Science
- Applied Mathematics and Computer Science
- Architecture
- Computer Science
- Earth Sciences
- Environmental Sciences
- Geosciences
- Industrial Design
- Landscape Architecture
- Mathematics
- Nanotechnology
- Physics
- Technology
- Urban Studies

Engineering
- Civil
- Computer Science
- Chemical
- Chemical and Metallurgical
- Electrical and Electronic
- Electronics and Telecommunications Systems
- Geological
- Geomatics
- Geophysical
- Industrial
- Mechatronics
- Mechanical
- Mechanical and Electrical
- Mining and Metallurgy
- Petroleum
- Renewable Energy
- Telecommunications Systems

Social Sciences
- Accounting
- Agricultural Development Planning
- Agricultural and Livestock Management
- Communication
- Communication Sciences
- Communication Sciences (Journalism)
- Economics
- Geography
- Geohistory
- Industrial Economics
- Informatics
- Intercultural Development and Management
- International Affairs
- Law
- Management
- Political Sciences
- Public Administration
- Social Work
- Sociology

Student Community
- 324,413
- 58% Undergraduate
- 34% High School
- 8% Graduate

Undergraduate Programs

**Biological and Health Sciences**
- Agricultural Engineering
- Basic Biomedical Research
- Biology
- Biopharmaceutical Chemistry
- Coastal Zone Sustainable Management
- Chemistry
- Dentistry
- Diagnostic Biochemistry
- Environmental Sciences
- Food Chemistry
- Food Engineering
- Genomic Sciences
- Industrial Chemistry
- Nursing
- Nursing and Obstetrics
- Odontology
- Optometry
- Pharmacy
- Physical Therapy
- Physician and Surgeon
- Psychology
- Veterinary Medicine and Zootechnology

**Humanities and Arts**
- Classic Literature
- Design and Visual Communication
- Dramatic Literature and Theatre
- English Teaching
- Ethnomusicology
- Graphic Design
- Hispanic Language and Literature
- History
- Instrumentalist
- Intercultural Literature
- Latin American Studies
- Library Science
- Modern English Language and Literature
- Modern French Language and Literature
- Modern German Language and Literature
- Modern Italian Language and Literature
- Modern Portuguese Language and Literature
- Music-Composition
- Music Education
- Music-Piano
- Music-Singing
- Pedagogy
- Philosophy
- Teaching German, Spanish, French, English or Italian as a Foreign Language
- Visual Arts

**Graduate Programs**
- Animal Husbandry and Health Sciences
- Anthropology
- Architecture
- Art History
- Astronomy
- Biochemical Sciences
- Biological Sciences
- Biomedical Sciences
- Chemical Sciences
- Computer Science and Engineering
- Earth Sciences
- Economics
- Engineering
- Geography
- History
- High School Teaching
- Industrial Design
- Latin American Studies
- Law
- Library and Information Sciences
- Linguistics
- Literature
- Management Science
- Materials Science and Engineering
- Mathematical Sciences
- Medical Dental Health Sciences
- Mesoamerican Studies
- Music
- Neurobiology
- Nursing
- Ocean Sciences and Limnology
- Pedagogy
- Philosophy
- Philosophy of Science
- Physical Sciences
- Political and Social Sciences
- Psychology
- Social Work
- Urban Studies
- Visual Arts
