| **General Information** | Fatih University was founded by Turkish Association of Health and Medical Treatment on 18 November 1996. Its envision is to become a leading world university, that aims at theoretical and practical education, research and development, by participating in global developments and issues while remaining attentive to local perspectives.  
Fatih University continues education in two different campuses in two different cities in Istanbul and Ankara.  
Fatih University prepares platforms for students to be able to mix with different cultures for a long time, while it enjoys multiculturalism with its international students on the campus. Having English as a main medium of instruction, Fatih University has about 1300 international students from 103 different countries (total students are about 14,836 as of November 2012). Our students are also provided with the opportunity of learning a second foreign languages such as German, French, Russian, Spanish, Japanese, Chinese, Arabic, and Persian.  
Students are offered to enroll in exchange programs within the scope of both Erasmus and other international educational protocols. This way, they are given a chance to experience the other cultures and values.  
Through a wide variety of student clubs, Fatih University provides students with ample opportunities to gain knowledge and skills in expressing themselves and taking initiative in planning and organizing social events and activities.  
The University considers preparing an environment with a globally competitive capacity, and keeping abreast of all the latest developments in ever-changing scientific and progressive technology, as one of its primary tasks. In this regard, the University employs 80 distinguished foreigner academics from 38 different foreign countries and Turkish academics who have received their doctoral degrees from distinguished foreign and national universities.  
Besides excellence in teaching, Fatih University focuses on becoming a leading research university. Towards this goal, the University has been allocating several resources for research projects in a wide range of disciplines. In addition, |
